Independent Auditor's Report

(English Translation of a Report Originally Issued in Korean)

To the Board of Directors and Shareholders of
Samsung Biologics Co., Ltd.

Opinion

We have audited the accompanying consolidated financial statements of Samsung Biologics Co., Ltd. (the "Company") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statements of financial position as of December 31, 2024 and 2023, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards as adopted by the Republic of Korea (Korean IFRS).

We also have audited, in accordance with Korean Standards on Auditing, the Group's Internal Control over Financial Reporting for consolidation purposes as of December 31, 2024, based on *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting*, and our report dated February 25, 2025 expressed an unqualified opinion.

Basis for Opinion

We conducted our audits in accordance with Korean Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements of the Republic of Korea that are relevant to our audit of the consolidated financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 34 to the consolidated financial statements.

Administrative lawsuit against a ruling of the Securities and Futures Commissions

As described in Note 34 to the consolidated financial statements, the Securities and Futures Commission (the "SFC") made a decision to impose measures on the Company's consolidated financial statements including alleged errors in accounting for the Company's investment in Samsung Bioepis from 2012 to the first half of 2018.

The Company submitted requests to the Seoul Administrative Court (the “Court”) to suspend the measures imposed by the SFC and the Court accepted the Company’s requests. In relation to this, the appeal and re-appeal made by SFC were rejected by the Seoul High Court and the Supreme Court, respectively.

An administrative lawsuit against a ruling of the SFC is in progress, and it is not possible to predict the outcome. However, if the Group loses the administrative lawsuit, the Group’s consolidated financial statements from 2012 to 2022 could be restated.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(1) Revenue recognition cut-off of CMO batch sales

Why it is determined to be a Key Audit Matter

The Group operates a CMO (Contract Manufacturing Organization) business which is engaged for the production of bio-medicine. The Group’s revenue recognition process primarily includes technology transfer procedures, regulatory approval procedures, and commercial production procedures. The Group recognizes revenue over time when the transfer of control of produced biomedicine to a customer is made (Note 2).

Since the timing of transfer of control of CMO batch sales may vary depending on the transaction agreement between parties, the timing of recognition of CMO business revenue is identified as a significant risk. And we determined that revenue recognition cut-off of the CMO batch sales to be a key audit matter as its size in the consolidated financial statements is significant.

How our audit addressed the Key Audit Matter

Audit procedures we have performed in relation to the CMO revenue recognition are as follows.

- Assessed the reasonableness of the accounting policy in relation to revenue recognition.
- Obtained an understanding and evaluated internal controls over the determination of the timing of revenue recognition.
- Inspected contracts for a sample of projects to assess the appropriateness of revenue recognition accounting.
- Assessed the appropriateness of the determination of the revenue recognition point by project through audit sampling.

(2) Appropriateness of Impairment test of Goodwill and Development cost

Why it is determined to be a Key Audit Matter

As explained in Notes 15 to the consolidated financial statements, the Group recognizes ₩ 1,677,608 million of goodwill and ₩ 3,806,634 million of development cost at the end of the reporting period through the business combination with Samsung Bioepis Co., Ltd. in 2022. In accordance with Korean IFRS 1036 *Impairment of Assets*, impairment test shall be performed annually for goodwill acquired in a business combination and intangible assets with indefinite useful lives. We identified impairment test of goodwill and development cost as significant risk and determined it to be a key audit matter as significant judgment and estimation of the Group's management such as discount rate, growth rate and future cash flow involved in the estimation of recoverable amount in impairment test of goodwill and development cost.

How our audit addressed the Key Audit Matter

Audit procedures we have performed in relation to the impairment test of goodwill and development cost are as follows.

- Assessed the independence and competence of the independent external expert engaged by management.
- Engaged our internal specialists, to assist in assessing the appropriateness of the valuation method and key assumptions.
- Assessed the reasonableness of the key assumptions and variables used in the assessment by comparing the latest business plans adopted by management with historical performance and available external data.
- Compared the actual results for the current year with management's estimates of cash flows calculations from the previous year in order to assess the historical appropriateness of the management's forecasting process.
- Tested the mathematical accuracy of calculations and analysed the sensitivity.
- Assessed the effectiveness of design and operation of management's review controls.
- Assessed the appropriateness of the disclosures in the notes to the consolidated financial statements related to the impairment test of goodwill and development cost.

Other Matter

Auditing standards and their application in practice vary among countries. The procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Korean IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Korean Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Korean Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ki-Rok Kim, Certified Public Accountant.

Samuel PricewaterhouseCoopers

Seoul, Korea
February 25, 2025

This report is effective as of February 25, 2025, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that there is a possibility that the above audit report may have to be revised to reflect the impact of such subsequent events or circumstances, if any.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

1. General Information

Samsung Biologics Co., Ltd. (the "Company") was established on April 22, 2011 under the commercial law of the Republic of Korea and is engaged in Biopharmaceutical manufacturing. The Company's head office is located in 300, Songdobio-daero, Yeonsu-gu, Incheon-si, The Republic of Korea. The Company was listed on securities market on November 10, 2016. As of December 31, 2024, the Company's issued capital is ₩ 177,935 million.

The shareholders of the Company as of December 31, 2024, are as follows:

Shareholder	Number of shares	Percentage of ownership (%)
Samsung C&T Corporation	30,646,705	43.06
Samsung Electronics Co., Ltd.	22,217,309	31.22
Others	18,309,986	25.72
	<u>71,174,000</u>	<u>100.00</u>

Samsung Biologics Co., Ltd. (the "Company", a controlling company in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("Korean IFRS") 1110 *Consolidated Financial Statements*) and a subsidiary (collectively referred to as the "Group") prepared the consolidated financial statements accounting for the investments in associates and joint ventures using the equity method.

1.1 Consolidated Subsidiary

Details of the consolidated subsidiary as of December 31, 2024 and 2023, are as follows:

	Location	Percentage ownership (%)		Main business	Closing month
		2024	2023		
SAMSUNG BIOLOGICS AMERICA Inc.	USA	100.00	100.00	Other services	December

1.2 Changes in Scope for Consolidation

There are no changes in the scope of consolidated subsidiaries during the year ended December 31, 2024.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

2. Material Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation

The Group maintains its accounting records in Korean won and prepares statutory consolidated financial statements in the Korean language (Hangul) in accordance with International Financial Reporting Standards as adopted by the Republic of Korea (Korean IFRS). The accompanying consolidated financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Group's financial position, financial performance or cash flows, is not presented in the accompanying financial statements.

The consolidated financial statements of the Group have been prepared in accordance with Korean IFRS. These are the standards, subsequent amendments and related interpretations issued by the International Accounting Standards Board (IASB) that have been adopted by the Republic of Korea.

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments), and
- Defined benefit pension plans – plan assets measured at fair value.

The preparation of financial statements requires the use of significant accounting estimates. Management also needs to exercise judgement in applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

2.2 Changes in Accounting Policies and Disclosures

2.2.1 New and amended standards adopted by the Group

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing January 1, 2024.

(a) Amendments to Korean IFRS 1001 Presentation of Financial Statements – Classification of Liabilities as Current or Non-current, Non-current Liabilities with Covenants

The amendments clarify that liabilities are classified as either current or non-current, depending on the substantive rights that exist at the end of the reporting period. Classification is unaffected by the likelihood that an entity will exercise right to defer settlement of the liability or the expectations of management. Also, the settlement of liability includes the transfer of the entity's own equity instruments, however, it would be excluded if an option to settle them by the entity's own equity instruments if compound financial instruments is met the definition of equity instruments and recognized separately from the liability. In addition, covenants that an entity is required to comply with after the end of the reporting period would not affect classification of a liability as current or non-current at the reporting date. When an entity classifies a liability that is subject to the covenants which an entity is required to comply with within twelve months of the reporting date as non-current at the end of the reporting period, the entity shall disclose information in the notes to understand the risk that non-current liabilities with covenants could become repayable within twelve months after the reporting period. The amendments do not have a significant impact on the financial statements.

(b) Amendments to Korean IFRS 1007 Statement of Cash Flows, Korean IFRS 1107 Financial Instruments: Disclosures – Supplier finance arrangements

When applying supplier finance arrangements, an entity shall disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and on the entity's exposure to liquidity risk. The Group has provided new disclosures for liabilities under supplier finance arrangements, as well as the associated cash flows, in Notes 17 and 30.

(c) Amendments to Korean IFRS 1116 Leases – Lease Liability in a Sale and Leaseback

When subsequently measuring lease liabilities arising from a sale and leaseback, a seller-lessee shall determine lease payments or revised lease payments in a way that the seller-lessee would not recognize any amount of the gain or loss that relates to the right of use retained by the seller-lessee. The amendments do not have a significant impact on the financial statements.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(d) Amendments to Korean IFRS 1001 Presentation of Financial Statements – Disclosure of Cryptographic Assets

The amendments require an additional disclosure if an entity holds cryptographic assets, or holds cryptographic assets on behalf of the customer, or issues cryptographic assets. The amendments do not have a significant impact on the financial statements.

2.2.2 New standards and interpretations not yet adopted by the Group

The following new accounting standards and interpretations have been published that are not mandatory for December 31, 2024 reporting periods and have not been early adopted by the Group.

(a) Amendments to Korean IFRS 1021 The Effects of Changes in Foreign Exchange Rates and 1101 First-time Adoption of International Financial Reporting Standards – Lack of Exchangeability

When an entity estimates a spot exchange rate because exchangeability between two currencies is lacking, the entity shall disclose related information. The amendments should be applied for annual periods beginning on or after January 1, 2025, and earlier application is permitted. The Group is in review for the impact of these amendments on the financial statements.

(b) Amendments to Korean IFRS 1109 Financial Instruments, Korean IFRS 1107 Financial Instruments: Disclosures

Korean IFRS 1109 *Financial Instruments* and Korean IFRS 1107 *Financial Instruments: Disclosures* have been amended to respond to recent questions arising in practice, and to include new requirements. The amendments should be applied for annual periods beginning on or after January 1, 2026, and earlier application is permitted. The Group is in review for the impact of these amendments on the financial statements. These amendments:

- clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- add new disclosures of impact on the entity and the extent to which the entity is exposed for each type of financial instruments if the timing or amount of contractual cash flow changes due to amendment of contract term; and
- update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI).

(c) Annual Improvements to Korean IFRS – Volume 11

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Annual Improvements to Korean IFRS -Volume 11 should be applied for annual periods beginning on or after January 1, 2026, and earlier application is permitted. The Group does not expect the amendments to have a significant impact on the financial statements.

- Korean IFRS 1101 *First-time Adoption of International Financial Reporting Standards: Hedge accounting by a first-time adopter*
- Korean IFRS 1107 *Financial Instruments: Disclosures: Gain or loss on derecognition and implementation guidance*
- Korean IFRS 1109 *Financial Instruments: Derecognition of lease liabilities and definition of transaction price*
- Korean IFRS 1110 *Consolidated Financial Statements: Determination of a 'de facto agent'*
- Korean IFRS 1007 *Statement of Cash Flows: Cost method*

2.3 Consolidation

The Group has prepared the consolidated financial statements in accordance with Korean IFRS 1110 *Consolidated Financial Statements*.

(a) Subsidiaries

Subsidiaries are all entities over which the Parent company has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group. The consideration transferred is measured at the fair values of the assets transferred, and identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity that is provided a proportionate share in the case of liquidation on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. All other non-controlling interests are measured at fair values, unless otherwise required by other standards. Acquisition-related costs are expensed as incurred.

The excess of consideration transferred, amount of any non-controlling interest in the acquired entity and acquisition-date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in the profit or loss as a bargain purchase.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Parent Company. Any difference between the amount of the adjustment to non-controlling interest and any consideration paid or received is recognized in a separate reserve within equity attributable to owners of the Parent Company.

When the Group ceases to consolidate for a subsidiary because of a loss of control, any retained interest in the subsidiary is remeasured to its fair value with the changed in carrying amount recognized in profit or loss.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(b) Associates and joint ventures

Associates are those entities in which the Group has significant influence, but no control or joint control, over the financial and operating policies.

A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Investments in associates and joint ventures are accounted for using the equity method of accounting, after initially being recognized at cost. Unrealized gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in the associates and joint ventures. If the Group's share of losses of an associate and joint venture equals or exceeds its interest in the associate and joint venture (including long-term interests that, in substance, form part of the Group's net investment in the associate and joint venture), the Group discontinues recognizing its share of further losses. After the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

If there is an objective evidence of impairment for the investment in the associate and joint venture, the Group recognizes the difference between the recoverable amount of the associate and joint venture and its book amount as impairment loss. If an associate and joint venture uses accounting policies other than those of the Group for like transactions and events in similar circumstances, if necessary, adjustments shall be made to make the accounting policies of the associate and joint venture conform to those of the Group when the financial statements of the associate and joint venture are used by the Group in applying the equity method.

2.4 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

2.5 Foreign Currency Translation

(a) Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which each entity operates (the "functional currency"). The consolidated financial statements are presented in Korean won, which is the Group's functional and presentation currency.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss. They are deferred in other comprehensive income if they relate to qualifying cash flow hedges and qualifying effective portion of net investment hedges, or are attributable to monetary part of the net investment in a foreign operation.

Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities held at fair value through other comprehensive income are recognized in other comprehensive income.

2.6 Financial Assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured at amortized cost
- those to be measured at fair value through other comprehensive income, and
- those to be measured at fair value through profit or loss.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For financial assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The Group reclassifies debt investments when, and only when its business model for managing those assets changes.

For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. Changes in fair value of non-designated equity investment are recognized in profit or loss.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(b) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

A. Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments into one of the following three measurement categories:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in 'finance income' using the effective interest rate method.
- **Fair value through other comprehensive income:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment loss (reversal of impairment loss), interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in 'finance income or costs'.

B. Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments, which are held for long-term investments or strategic purposes, in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investments. Dividend income from such investments continue to be recognized as 'finance income' when the right to receive payments is established.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Changes in the fair value of financial assets at fair value through profit or loss are recognized in 'finance income and costs. Impairment loss (reversal of impairment loss) on equity investments measured at fair value through other comprehensive income are not reported separately.

(c) Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortized cost and fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade and other receivables and contract assets, the Group applies the simplified approach, which requires expected lifetime credit losses to be recognized from initial recognition of the receivables (Note 33).

(d) Recognition and Derecognition

Regular way purchases and sales of financial assets are recognized or derecognized on the trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

If a transfer does not result in derecognition because the Group has retained substantially all the risks and rewards of ownership of the transferred asset, the Group continues to recognize the transferred asset in its entirety and recognizes a financial liability for the consideration received.

(e) Offsetting of financial instruments

Financial assets and liabilities are offset and reported in the statement of financial position where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and also in the event of default, insolvency or bankruptcy of the Group or the counterparty.

2.7 Derivative Instruments

Derivatives are initially recognized at fair value on the date when a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each reporting period. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognized immediately in profit or loss based on the nature of transactions.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

2.8 Trade Receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. Trade receivables are recognized initially at the amount of consideration that is unconditional, unless they contain significant financing components and are recognized at fair value. Trade receivables are subsequently measured at amortized cost using the effective interest method, deducting allowance for credit losses.

2.9 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the individual method, moving weighted average method, or monthly gross average method. The cost of inventories includes expenditures for acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Fixed production overheads which are included in the costs of finished goods or work-in-process are allocated based on the criteria specific to each production process.

The amount of any write-down of inventories to net realizable value and all losses of inventories are recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, are recognized as a reduction in the amount of inventories recognized as cost of revenue in the period in which the reversal occurs.

2.10 Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are recognized as expense during the financial period in which they are incurred.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Depreciation of all property, plant and equipment, except for land, is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives as follows:

	Useful lives
Buildings and Structures	40 years
Machinery	5 ~ 15
Vehicles	4
Others	4

The assets' depreciation method, residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized in profit or loss.

2.11 Borrowing Costs

The Group capitalizes borrowing costs directly attributable to the acquisition, construction, or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets and inventories that are manufactured or otherwise produced over a short period of time are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Group borrows funds specifically for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Group shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Group capitalizes during a period shall not exceed the amount of borrowing costs incurred during that period.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

2.12 Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants related to assets are presented as a deduction when calculating the carrying amount of assets, and subsidies related to income are deferred and presented as a deduction from related expenses for the purpose of the government grants.

In connection with a lease agreement with Incheon Metropolitan city ("Incheon") related to the use of some land, the Group is exempt from the full amount of rent because the Group meets the requirements for exemption of rent in accordance with the Common Property Management Ordinance of Incheon. The Group recognized an intangible asset at the fair value of the rent that is exempt from Incheon and government grant as a reduction of assets at the same value.

2.13 Intangible Assets

Goodwill is measured as described in Note 2.3, and carried at cost less accumulated impairment losses. Intangible assets acquired in a business combination are initially measured at their fair value at the acquisition date. Intangible assets other than these are initially recognized at its historical cost, and carried at cost less accumulated amortization and accumulated impairment losses.

Intangible assets acquired in a business combination are amortized using the straight-line method over the following useful life. Amortization of intangible assets other than these is calculated on a straight-line basis over the following estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, as there are no foreseeable limits to the periods over which memberships are expected to be available for use, they are determined as having indefinite useful lives and are not amortized.

	Useful lives
Development costs	5 ~ 12 years
Software	5
Other intangible assets	5
Land use rights	50
Trademarks and patent rights	10
Memberships	indefinite

Useful lives and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

- **Research & Development**

Expenditure for research or research phase of internal projects is recognized as an expense when incurred. Expenditure in development stage is recognized as intangible assets when it is technically feasible to complete the assets, adequate resources to complete the development and to use or sell the assets are available, future economic benefits of intangible assets are identified, and the relevant expenditures can be reliably measured. Other expenditures for development are recognized as expenses when incurred.

- **Subsequent expenditures**

Subsequent expenditures are capitalized only when the future economic benefits belonging to the specific assets are increased, and other expenditures, including internally generated goodwill and brand names, are expensed immediately upon occurrence.

The judgement made by the Group's management regarding the recognition of intangible assets is as follows.

Biosimilar products start from extracting proteins after cell line development and making them into a pharmaceutical form. If it passes the equivalence test for the original medicines, it can start clinical procedures. The final approval for sales is obtained considering the results of the clinical tests and the production ability to commercialization.

The Group determined that the intangible assets are individually identifiable and technically feasible at the time of approval for the application of the first clinical trial, when the regulatory body has confirmed the similarity verification data with the original biologic medicine. In addition, only expenses directly related to clinical trials should be capitalized as development expenses, and other expenses are recognized as expenses. Other expenses incurred in relation to the development of Biobetter and new medicines are recognized as expenses for the current period as they do not meet the requirements for capitalization.

2.14 Impairment of Non-financial Assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

2.15 Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of reporting period which are unpaid. Trade and other payables are presented as current liabilities, unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

2.16 Financial Liabilities

(a) Classification and measurement

The Group's financial liabilities at fair value through profit or loss are financial instruments held for trading. A financial liability is held for trading if it is incurred principally for the purpose of repurchasing in the near term. A derivative that is not designated as a hedging instrument and an embedded derivative that is separated are also classified as held for trading.

The Group classifies non-derivative financial liabilities, except for financial liabilities at fair value through profit or loss, financial guarantee contracts and financial liabilities that arise when a transfer of financial assets does not qualify for derecognition, as financial liabilities carried at amortized cost and present as 'trade and other payables' and 'debentures and borrowings' in the statement of financial position.

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current.

Covenants that the Group is required to comply with after the reporting period do not affect the classification at the reporting date.

(b) Derecognition

Financial liabilities are removed from the statement of financial position when it is extinguished; for example, when the obligation specified in the contract is discharged or cancelled or expired or when the terms of an existing financial liability are substantially modified. The difference between

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

2.17 Provisions and Contingencies

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period, and the increase in the provision due to the passage of time is recognized as interest expense.

A contingent liability is disclosed when; - a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or - a present obligation that arises from past events but is not recognized because: it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

2.18 Greenhouse Gas Emission Permits

With enforcement of The Act on the Allocation and Trading of Greenhouse Gas Emission Permits, the allocation received from the government for free of charge are measured at zero while purchased emission permits are measured at acquisition cost and presented net of accumulated impairment loss. Emissions obligations are measured as the best estimate of expenditure required to settle the obligation at the end of the reporting period for the gas emissions in excess of the emission permits. Emission permits and emission obligations are classified as intangible assets and emission liability, respectively, in the statement of financial position.

2.19 Current and Deferred Tax

The tax expense for the period consists of current and deferred tax. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax expense is measured at the amount expected to be paid to the taxation authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation, and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full on temporary differences arising between the tax bases of

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

assets and liabilities and their carrying amounts in the financial statements. However, deferred income tax is not accounted for if it arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

The Group recognizes a deferred tax liability all taxable temporary differences associated with investments in associates, and interests in joint arrangements, except to the extent that the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. In addition, The Group recognizes a deferred tax asset for all deductible temporary differences arising from such investments to the extent that it is probable the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset when the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

2.20 Employee Benefits

(a) Short-term employee benefits

Short-term employee benefits are employee benefits that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related services. When an employee has rendered service to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

(b) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service, and are calculated at the present value of the amount of future benefit that employees have earned in return for their services in the current and prior periods. Any changes from re-measurements are recognized through profit or loss in the period in which they arise.

(c) Post-employment benefits

The Group operates both defined contribution and defined benefit pension plans.

For defined contribution plans, the Group pays contribution to publicly or privately administered pension insurance plans on mandatory, contractual or voluntary basis. The Group has no further

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

payment obligation once the contribution has been paid. The contribution is recognized as employee benefit expense when they are due.

A defined benefit plan is a pension plan that is not a defined contribution plan. Generally, post-employment benefits are payable after the completion of employment, and the benefit amount depend on the employee's age, periods of service or salary levels. The liability recognized in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments, curtailments or settlements are recognized immediately in profit or loss as past service costs.

2.21 Contributed Capital

Ordinary shares are classified as equity. Transaction costs directly related to the issuance of ordinary shares and share options are recognized as a deduction from equity.

2.22 Earnings per Share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

2.23 Revenue Recognition

(a) Identification of performance obligation

- CMO (Contract Manufacturing Organization) business

The Group manufactures and supplies made-to-order biomedicine. Services mandatorily rendered prior to a production of biomedicine do not form a part of a performance obligation since they are considered as a set-up process. Only the sales of biomedicine are recognized as performance obligations.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

- CDO (Contract Development Organization) business

The Group provides cell line and upstream/downstream process development services. The Group recognizes cell line and upstream/downstream process development services as distinct performance obligations.

- Development and commercialization of biosimilar products

The Group recognizes the development of biosimilar products and the sale of commercialized products to the end customers as performance obligations.

(b) Satisfaction of performance obligations

- CMO business

Goods manufactured by the Group do not have an alternative use to the Group, and it has an enforceable right to payment for performance completed to date. This is because that the Group produces biomedicine at a quality that a customer requires and is entitled to reimbursement of the costs incurred to date, including a reasonable margin if a customer terminates a contract. Therefore, the Group recognizes revenue and the associated costs over time as it satisfies its performance obligation over a contract period.

Under the practical expedient of Korean IFRS 1115, the transaction price allocated to these unsatisfied contracts is not disclosed.

- CDO business

Revenue is recognized over time during the research period of each service as a customer simultaneously receives and consumes the benefits provided by the Group as the Group performs research and development services.

- Development of biosimilar products and sales of biosimilar commercialized products

The Group's revenue is generated from commissions related to the development of biosimilar products and external sales of commercialized products. The Group recognizes revenue by identifying performance obligations from product development and manufacturing in the contract. The timing of revenue recognition by the Group varies depending on whether each performance obligation is satisfied at a point in time or over time. The Group's revenue is recognized depending on whether a performance obligation is satisfied at a point in time or over time.

Among contracts that covering the development and commercialization of biosimilar products, the Group reviewed whether the definition of customer mentioned in the contracts align with the meaning of customer referred in paragraph 6 of Korean IFRS 1115.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Contracts in which the counterparties meet the definition of a customer, revenue is measured based on the consideration promised in the contract with the customer, and the Group recognizes revenue when control of the goods or services is transferred to the customer.

Contracts in which the counterparties do not meet the definition of a customer are not subject to Korean IFRS 1115, and there is no provision in Korean IFRS that specifically stipulates a series of transactions pursuant to such a collaboration agreement. The Group developed and applied accounting policies in accordance with paragraphs 10 to 12 of Korean IFRS 1008. As a result, the Group recognizes revenue from the transfer of control of license and revenue from the sale of commercialized products separately as follows:

- *Revenue recognition timing for fees related to the development of biosimilar products:*

The Group recognizes considerations received from customers through the development of biosimilar products (including Upfront and Milestone fees) as revenue when controls of an exclusive, non-transferable license are transferred to the customers (e.g., when regulatory approval is obtained).

- *Transactions with counterparties that do not meet the definition of a customer:*

In accordance with contractual agreements, the consolidated company participates in the production and sale of products with partners to generate revenue. The total profit or loss generated from these products and within specific regions over a certain period is settled according to an agreed-upon ratio. The profit and loss settlement between the consolidated company and its partners includes all sales, cost of sales, and marketing expenses incurred during the revenue-generating process from product production to sales to end customers.

The Group has reviewed whether the partner in this transaction meets the definition of a customer as prescribed in paragraph 6 of Standard No. 1115. It has been determined that the partner does not meet the definition of a customer because it does not acquire the output of the company's ordinary activities. Instead, the partner participates with the Group in the production and sale of products to generate revenue and shares in the risks and benefits arising from those activities.

- *Transactions with counterparties that meet the definition of a customer:*

The Group recognizes revenue at the point in time when a commercialized product is sold to the customer and control of the goods is transferred to the customer.

(c) Costs to fulfil a contract

If the costs incurred in fulfilling a contract with a customer are related directly to a contract or to an anticipated contract that the entity can specifically identify, generate or enhance resources of the entity that will be used in satisfying performance obligations in the future, and the costs are expected to be recovered, the costs are recognized as assets. And the costs to fulfil a contract are recognized as cost of revenue based on the percentage of completion.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(d) Contract assets and contract liabilities

- CMO business

The Group recognizes the amount of the advance consideration by customers related to the transfer of technology or engineering batch production as contract liabilities and related costs as costs to fulfil a contract. Such activities are required in advance for the production of goods ordered but do not transfer goods or services to a customer. Accordingly, they are not included in a performance obligation.

- CDO business

In a CDO business, a contract asset is an entity's right to receive consideration in exchange for goods or services that the entity has transferred to a customer, and a contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

- Development of biosimilar products and sales of commercialized products

The Group recognizes unbilled amounts for R&D services for which performance obligations have been completed as contract assets. Commissions received from customers through the development of biosimilar products (including Upfront and Milestone fees) are recognized as contract liabilities.

(e) Variable consideration

If the consideration promised in a contract includes a variable amount, the Group estimates the amount of consideration to which the Group will be entitled to in exchange for transferring the promised goods or services to a customer. An amount of consideration can vary because of discounts, refunds, credits, price concessions, penalties or other similar items. The promised consideration can also vary if an entity's entitlement to the consideration is contingent on the occurrence or non-occurrence of a future event.

(f) Recognition of receivable

A receivable is recognized when the control of bio-medicine has been transferred as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

2.24 Leases

(a) Lessor

Lease income from operating leases where the Group is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The respective leased assets are included in the statement of financial position based on their nature.

(b) Lessee

The Group leases various offices, equipment and vehicles. Lease contracts are typically made for a fixed periods of 2 to 3 years, but may have extension options. Contracts may contain both lease and non-lease components. However, for leases of real estate for which the Group is lessee, the Group applies the practical expedient which has elected not to separate lease and non-lease components and instead accounts for these as a single lease component. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Some of lease contracts of the group include extension and termination options. These terms are used to maximize operational flexibility in terms of contract management. Most of the extension and termination options can be exercised by the group and not by the relevant lessor.

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liability measurement also include payments to be made in the option periods if the lessee is reasonably certain to exercise the option to extend the lease.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. The Group elected not to apply that revaluation model to buildings held by the Group that are presented in the right-of-use assets.

Short-term leases are leases with a lease term of 12 months or less. Low-value assets are comprised of IT-equipment and small items of office furniture. Payments associated with short-term leases and leases of low-value assets are recognized as an expense in profit or loss.

2.25 Approval of Issuance of the Financial Statements

The consolidated financial statements 2024 were approved for issue by the Board of Directors on January 22, 2025 and are subject to change with the approval of shareholders at their Annual General Meeting.

3. Significant Accounting Estimates and Assumptions

The preparation of consolidated financial statements requires the Group to make estimates and assumptions concerning the future. Management also needs to exercise judgement in applying the Group's accounting policies. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. As the resulting accounting estimates will, by definition, seldom equal the related actual results, it can contain a significant risk of causing a material adjustment.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. Additional information of significant judgement and assumptions of certain items are included in the relevant notes.

(a) Development costs

The Group uses management's best judgment, such as expected future cash flow and discount rate when reviewing capitalization requirements and useful lives of development costs. In addition, impairment tests for development costs are performed at the end of each reporting period, and there is uncertainty in estimating the recoverable amount including recoverability.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

(b) Income taxes

The Group's taxable income generated from these operations are subject to income taxes based on tax laws and interpretations of tax authorities in numerous jurisdictions. There are many transactions and calculations for which the ultimate tax determination is uncertain (Note 28).

If certain portion of the taxable income is not used for investments or increase in wages or dividends, the Group is liable to pay additional income tax calculated based on the tax laws. Accordingly, the measurement of current and deferred income tax is affected by the tax effects from the new tax system. As the Group's income tax is dependent on the investments, increase in wages and dividends, there is an uncertainty in measuring the final tax effects.

(c) Impairment of costs to fulfill a contract

The Group reviews whether there are any impairment indicators of costs to fulfil a contract at the end of each reporting period. The Group recognizes the impairment by comparing the revenue expected to receive for goods or service related to the costs to fulfil a contract with expected cost that are directly attributable. These calculations require estimates.

(d) Net defined benefit liability (asset)

The present value of net defined benefit liability (asset) depends on a number of factors that are determined on an actuarial basis using a number of assumptions including the discount rate (Note 21).

(e) Impairment of goodwill

The Group tests whether goodwill has suffered any impairment by the recoverable amount of a cash generating unit (CGU) which is determined based on fair value method.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

4. Operating Segments

The Group has disclosed operating segments in the consolidated financial statements in accordance with Korean IFRS 1108, and the operating segments of the Group is consisted of the CDMO (Contract Development and Manufacturing Organization) segment, and the biopharmaceutical development and commercialization segment. The management, who makes strategic decisions for the Group, determines the operating segments of the Group. The Group's management makes decisions on resources to be allocated to each division and reviews the performance of each division based on the operating profit of each division.

Information by segment as of and for the years ended December 31, 2024 and 2023, are prepared after eliminating intercompany transactions.

Information on profit or loss for each segment for the years ended December 31, 2024 and 2023, are as follows:

	2024			2023		
	CDMO	Biopharmaceutical development and commercialization ¹	Total	CDMO	Biopharmaceutical development and commercialization ¹	Total
Total sales	₩ 3,512,195,434,962	₩ 1,537,700,053,729	₩ 5,049,895,488,691	₩ 2,951,741,892,359	₩ 1,020,297,642,816	₩ 3,972,039,535,175

¹ The Group used the carrying amount as a proxy for fair value because it is a reasonable approximation of fair value.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

(d) Fair value hierarchy

The following presents financial instruments measured and recognized at fair value as of December 31, 2024 and 2023:

<i>(in Korean won)</i>		2024			
		Level 1	Level 2	Level 3	Total
Financial assets					
Financial assets at fair value through profit or loss	₩	-	₩ 1,151,653,488	₩ 5,567,314,785	₩ 6,718,968,273
Financial liabilities					
Derivative liabilities		-	-	5,134,918,626	5,134,918,626
<i>(in Korean won)</i>		2023			
		Level 1	Level 2	Level 3	Total
Financial assets					
Financial assets at fair value through profit or loss	₩	-	₩ -	₩ 1,239,609,674	₩ 1,239,609,674
Derivative assets		-	4,512,654,027	-	4,512,654,027
Financial liabilities					
Derivative liabilities		-	-	24,643,703,711	24,643,703,711

(e) Valuation techniques and inputs

Valuation techniques and significant inputs used in measuring the fair value of financial instruments classified as level 2 and level 3 as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	Fair value		Level	Valuation techniques	Inputs
	2024	2023			
Financial assets at fair value through profit or loss	₩ 1,151,653,488	₩ -	2	Market approach	Third-party transaction price
Financial assets at fair value through profit or loss ¹	5,567,314,785	1,239,609,674	3	-	-
Derivative assets (currency interest swap)	-	4,512,654,027	2	Discount cash flow model	Currency forward rate, interest rate, discount rate and others
Derivative liabilities (contingent considerations in the stock purchase)	5,134,918,626	24,643,703,711	3	Option model	Discount rate and others

¹ The Group measures certain non-listed shares among financial assets at fair value at cost, of which the fair value cannot be measured reliably, and believes that these amortized cost or

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

acquisition cost is similar to fair value.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(f) Valuation Processes for Fair Value Measurements Categorized as Level 3

The Group's finance department operates a separate team that performs the fair value measurements required for financial reporting purposes, including level 3 fair values. Discussions of valuation process and result are held at reporting date, in line with the Group's end of each reporting periods.

(g) Sensitivity analysis of financial instruments is performed to measure favorable and unfavorable changes in the fair value of financial instruments which are affected by the unobservable parameters, using a statistical technique. When the fair value is affected by more than two input parameters, the most favorable or most unfavorable amounts are presented.

(in Korean won)	Volatility	Favorable changes	Unfavorable changes
Discount rate ¹	0.5%	₩ 105,792,594	₩ (52,466,263)

¹ The changes in the fair value of derivative liabilities was calculated by increasing or decreasing significant but unobservable inputs among the inputs that determine the fair value of the underlying assets.

(h) Net gains or losses by category of financial instruments

Net gains or losses on each category of financial instruments for the years ended December 31, 2024 and 2023, are as follows:

(in Korean won)	Interest income (expenses)		Gain (loss) on valuation		Other income (expenses) ¹		Net income (loss)	
	2024	2023	2024	2023	2024	2023	2024	2023
Financial assets at amortized cost	₩ 63,839,149,226	₩95,650,057,425	₩ -	₩ -	₩ 32,393,430,708	₩ (21,308,189,657)	₩ 96,232,579,934	₩ 74,341,867,768
Financial assets at fair value through profit or loss	-	-	597,279,073	(2,322,541)	-	-	597,279,073	(2,322,541)
Derivative assets	-	-	1,086,047,835	1,962,774,713	(459,701,862)	(968,578,500)	626,345,973	994,196,213
Financial liabilities at amortized cost	(47,581,436,950)	(73,679,429,906)	-	-	51,126,070,127	(11,539,476,530)	3,544,633,177	(85,218,906,436)
Derivative liabilities	-	-	19,508,785,085	(1,909,712,375)	-	-	19,508,785,085	(1,909,712,375)
Other liabilities	(2,475,862,849)	(7,916,972,301)	-	-	-	-	(2,475,862,849)	(7,916,972,301)
	₩13,781,849,427	₩14,053,655,218	₩ 21,192,111,993	₩ 50,739,797	₩ 83,059,798,973	₩ (33,816,244,687)	₩ 118,033,760,393	₩ (19,711,849,672)

¹ Other income and expenses include gain (loss) on foreign currency translations and transactions, gain (loss) on transactions of derivatives and bad debt expense (reversal) on trade and other receivables.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

6. Cash and Cash Equivalents

Cash and cash equivalents as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024	2023
Cash equivalents	₩ 391,221,617,203	₩ 367,937,365,042

7. Restricted Financial Instruments

Restriction of financial instruments as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024	2023	Note
Long-term financial instruments	₩ 12,000,000	₩ 140,951,785	Deposits on checking accounts
	373,357,612	7,198,503,426	Establishment of a pledge right
	<u>₩ 385,357,612</u>	<u>₩ 7,339,455,211</u>	

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

8. Trade and Other Receivables

Details of trade and other receivables as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024		
	Gross amount	Allowance for doubtful account¹	Net amount
Trade receivables	₩ 1,106,434,765,062	₩ (36,461,519,034)	₩ 1,069,973,246,028
Other receivables	111,202,630,888	(692,058,437)	110,510,572,451
Accrued income	8,832,261,348	-	8,832,261,348
Total ²	<u>₩ 1,226,469,657,298</u>	<u>₩ (37,153,577,471)</u>	<u>₩ 1,189,316,079,827</u>

<i>(in Korean won)</i>	2023		
	Gross amount	Allowance for doubtful account¹	Net amount
Trade receivables	₩ 534,763,280,914	₩ (44,996,121,608)	₩ 489,767,159,306
Other receivables	178,809,487,025	(386,697,749)	178,422,789,276
Accrued income	21,215,152,615	-	21,215,152,615
Total ²	<u>₩ 734,787,920,554</u>	<u>₩ (45,382,819,357)</u>	<u>₩ 689,405,101,197</u>

¹ The Group recognized allowance for doubtful account by calculating the expected credit loss for lifetime expected collection period from the initial recognition of receivables (Note 33).

² Trade and other receivables for related parties as of December 31, 2024 and 2023, are ₩ 3,379 million and ₩ 634 million, respectively (Note 31).

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

9. Contract Assets and Liabilities

Changes in contract assets and liabilities arising from contracts with customers for years ended December 31, 2024 and 2023, are as follows:

(in Korean won)	2024			
	Beginning balance	Increase	Decrease	Ending balance
Contract assets - costs to fulfil				
a contract	₩ 282,957,591,652	₩ 86,987,018,289	₩ (62,984,296,690)	₩ 306,960,313,251
Contract assets – unbilled ¹	24,791,698,034	61,896,794,655	(26,328,028,464)	60,360,464,225
Contract liabilities	502,568,138,620	376,929,597,211	(302,644,523,724)	576,853,212,107

¹ The amount of increase or decrease includes bad debt expense (reversal) (Note 33).

(in Korean won)	2023			
	Beginning balance	Increase	Decrease	Ending balance
Contract assets - costs to fulfil				
a contract	₩ 217,608,235,517	₩ 96,773,734,393	₩ (31,424,378,258)	₩ 282,957,591,652
Contract assets – unbilled ¹	47,334,764,538	13,402,570,012	(35,945,636,516)	24,791,698,034
Contract liabilities	386,890,751,450	232,135,498,329	(116,458,111,159)	502,568,138,620

¹ The amount of increase or decrease includes bad debt expense (reversal) (Note 33).

Costs incurred in fulfilling a contract include costs for technology transfer and production of trial batches in order to manufacture products that customers request. Such activities do not include transferring goods or services to a customer but are prerequisite for the production of goods ordered. Accordingly, they do not consist of a part of the performance obligation but are recognized as contract assets. Unbilled contract assets were recognized due to a difference between the extent of the Group's satisfaction of its performance obligation satisfied over time and the consideration billed to the customer. The Group recognizes Upfront and Milestone fees received from customers through the development of biosimilar products as well as advance receipt from customers as contract liabilities.

During the year ended December 31, 2024, impairment loss on costs to fulfil a contract recognized is ₩ 885 million (2023: nil).

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Besides the above contract liabilities recognized, the Group classifies the amount received prior to transferring goods or services to the customer as 'advance receipts'. Changes in advance receipts for the years ended December 31, 2024 and 2023, are as follows:

(in Korean won)	2024			
	Beginning balance	Increase	Decrease	Ending balance
Advance receipts	₩ 752,420,126,325	₩ 994,723,307,966	₩ (698,590,768,486)	₩ 1,048,552,665,805

(in Korean won)	2023			
	Beginning balance	Increase	Decrease	Ending balance
Advance receipts	₩ 480,710,156,255	₩ 720,506,919,438	₩ (448,796,949,368)	₩ 752,420,126,325

10. Inventories

Details of inventories as of December 31, 2024 and 2023, are as follows:

(in Korean won)	2024		
	Acquisition cost	Provision for loss on valuation	Book amount
Finished goods	₩ 697,191,681,632	₩ (1,963,390,002)	₩ 695,228,291,630
Work-in-process	1,080,989,625,039	(4,352,565,528)	1,076,637,059,511
Raw materials	832,179,016,862	(11,595,640,440)	820,583,376,422
Supplies	269,740,950,922	(43,913,904,110)	225,827,046,812
	<u>₩ 2,880,101,274,455</u>	<u>₩ (61,825,500,080)</u>	<u>₩ 2,818,275,774,375</u>

(in Korean won)	2023		
	Acquisition cost	Provision for loss on valuation	Book amount
Finished goods	₩ 730,941,993,203	₩ (2,706,340,110)	₩ 728,235,653,093
Work-in-process	811,066,332,167	(8,412,309,183)	802,654,022,984
Raw materials	857,877,089,493	(7,054,237,639)	850,822,851,854
Supplies	267,745,299,351	(8,089,361,199)	259,655,938,152
	<u>₩ 2,667,630,714,214</u>	<u>₩ (26,262,248,131)</u>	<u>₩ 2,641,368,466,083</u>

During the year ended December 31, 2024, the amount of inventories recognized as an expense is ₩ 2,106,347 million (2023: ₩ 1,801,505 million) and the amount includes loss on valuation of inventory for ₩ 59,418 million (2023: ₩ 9,074 million).

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Classification of amortization for the years ended December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024	2023
Cost of revenue	₩ 281,103,033,228	₩ 216,955,765,451
Selling, general and administrative expenses	13,641,775,615	9,986,985,811
	<u>₩ 294,744,808,843</u>	<u>₩ 226,942,751,262</u>

Total research and development costs recognized as expense for the years ended December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024		2023	
	Cost of revenue	Selling, general and administrative expenses	Cost of revenue	Selling, general and administrative expenses
Ordinary research expense	₩ -	₩ 144,648,961,156	₩ -	₩ 81,587,987,609

During the year ended December 31, 2024, the Group has capitalized borrowing costs amounting to ₩ 9,497 million (2023: ₩ 15,017 million) on intangible assets that are qualifying assets. The capitalization rate used to determine the amount of borrowing costs eligible for capitalization is 4.93% (2023: 4.87%).

Details of significant individual intangible assets as of December 31, 2024, are as follows:

(a) Project overview and sales approval time

Name of Project	Referencing Biologic	INN	Purpose	Approval date¹
SB2	Remicade®	Infliximab	Treatments for Rheumatoid Arthritis and others	December, 2015
SB3	Herceptin®	Trastuzumab	Treatments for Breast Cancer	November, 2017
SB4	Enbrel®	Etanercept	Treatments for Rheumatoid Arthritis and others	September, 2015
SB5	Humira®	Adalimumab	Treatments for Rheumatoid Arthritis	August, 2017
SB8	Avastin®	Bevacizumab	Treatments for Colorectal Cancer	August, 2020
SB11	Lucentis®	Ranibizumab	Treatments for Ophthalmologic disease	August, 2021
SB12	Soliris®	Eculizumab	Treatments for Paroxysmal Nocturnal Hemoglobinuria, etc.	May, 2023

SB27	Keytruda	Pembrolizumab	Cancer Immunotherapy	-

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

¹ The initial sales approval date among the approval date of each country's regulatory authorities. The Group recognizes development costs for each project by region.

(b) Products under development and completed development and remaining useful life

(in Korean won)		Development cost									
Stage	Pre-clinical		1st/3rd trial ¹	After government approval		Total	Accumulated impairment loss	Accumulated amortization	Book amount	Remaining useful life	
Biosimilar											
Developing	₩	-	₩ 1,217,053,687,526	₩	-	₩ 1,217,053,687,526	₩3,409,140,271	₩	-	₩1,213,644,547,255	-
Completed development		-	3,258,021,643,531		-	3,258,021,643,531	56,896,483,365	608,135,534,811	2,592,989,625,355	4 years 3 months ~ 10 years 4 months	
	₩	-	₩ 4,475,075,331,057	₩	-	₩ 4,475,075,331,057	₩60,305,623,636	₩ 608,135,534,811	₩3,806,634,172,610	-	

¹ Due to the nature of biosimilars, phase 2 clinical trials are not proceeding. Since the Group is conducting phase 1 and 3 clinical trials simultaneously, the development cost is aggregated.

The operating segments of the Group consist of the CDMO (Contract Development and Manufacturing Organization) segment, and the biopharmaceutical development and commercialization segment. Management reviews the business performance based on type of business. Goodwill is monitored by management at the operating segment level.

The table below summarizes goodwill allocation for each operating segment (cash-generating unit).

(in Korean won)		2024		2023	
		Carrying amount of cash-generating unit	Goodwill	Carrying amount of cash-generating unit	Goodwill
Biopharmaceutical development and commercialization	₩	5,926,036,490,890	₩ 1,677,607,967,122	₩ 5,934,097,958,083	₩ 1,677,607,967,122

On April 20, 2023, the Group acquired 10,341,852 shares of Samsung Bioepis Co., Ltd. and therefore reclassified Samsung Bioepis Co., Ltd. from a joint venture to a subsidiary by holding 100% of the shares.

The total carrying amount of ₩ 5,484,242 million (2023: ₩ 5,762,483 million) as of December 31, 2024 including development costs, in-process R&D and goodwill are related to biosimilars being developed by the Group.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

Impairment tests for intangible assets

The Group annually performs impairment tests on the intangible assets with indefinite useful life such as goodwill and others.

The recoverable amount of development cost and in-process R&D is calculated by deducting disposal costs from fair value (level 3) estimated for each project, and the Multi-period Excess Earning Method is used for calculation. For goodwill, the recoverable amount of the cash-generating units (group) in the biopharmaceutical development and commercialization segment is calculated based on fair value which disposal costs deducted. These calculations use pre-tax cash flow projections based on financial budgets covering a ten-year period considering the biopharmaceutical development and commercialization period. The key assumptions used to calculate the recoverable amount of major cash-generating units as of December 31, 2024 are perpetual growth rate of 3%, and a discount rate of 10% for development cost, 11% for in-process R&D and 9% for goodwill, respectively.

The perpetual growth rate is the growth rate used to estimate cash flows for periods beyond the forecast period. It is a growth rate that reflects the growth rate of the industry to which the Group belongs and the economic growth rate and inflation rate of major countries.

The weighted average cost of capital is a discount rate that reflects the specific risks associated with the segment, industry, and country to which the cash-generating unit belongs.

The impairment loss on intangible assets recognized by the Group for the year ended December 31, 2024, as a result of the review of development costs and related intangible assets due to changes in the business environment for treatments for ophthalmologic diseases, including macular degeneration, is as follows (2023: nil).

(in Korean won)	Book amount before recognition of impairment loss	Impairment loss		Valuation method of recoverable amount
		2024	Cumulative	
Intangible Asset	₩129,992,917,776	₩ (60,973,619,114)	₩ (60,973,619,114)	Fair value (level 3)

On the other hand, the recoverable amount of the Group's cash-generating unit changes according to the assumptions about the Group's major assumptions used in the impairment test of goodwill. The effect of changes in assumptions on the excess of recoverable amount against carrying amount of cash-generating units is as follows:

(in Korean won)	Discount rate		Perpetual growth rate	
	Increase 0.5%	Decrease 0.5%	Increase 0.5%	Decrease 0.5%
Changes in excess of recoverable value relative to the carrying amount of cash-generating unit	₩ (1,042,238,159,148)	₩ 1,234,527,060,553	₩ 773,844,812,104	₩ (654,791,764,088)

In the sensitivity analysis, 0.5% changes in the major assumptions have no effect of impairment.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

16. Debenture and Borrowings

Debentures and borrowings as of December 31, 2024 and 2023, are as follows:

¹ Liabilities under supplier finance arrangements classified as accounts payables and other payables are generally settled within 120 days (Note 30).

² Trade and other payables to related parties as of December 31, 2024 and 2023, are ₩ 561,979 million and ₩ 52,292 million, respectively (Note 31).

18. Emission Liability

(a) Emissions rights

The Group has been participating in Emission Trading Scheme in accordance with the Act on Allocation and Trading of Greenhouse Gas Emission since 2017. The quantity of emission rights for the 3rd planning periods (2021 ~ 2025) granted free of charge is as follows:

(in tCO2-eq)	2021	2022	2023 ¹	2024	2025	Total
Allocation with nil consideration	123,815	157,435	206,647	121,247	121,247	730,391

¹ In 2023, the Group allocated additional 84,254 units of emission rights of 2023 for the Plant 4 site.

There are no emission rights provided as collateral as of December 31, 2024.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Changes in emission permits quantities and the carrying amounts for the years ended December 31, 2024 and 2023, are as follows:

Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

19. Leases

The amounts relating to leases recognized as of December 31, 2024 and 2023 on the consolidated statement of financial position, are as follows:

<i>(in Korean won)</i>	2024	2023
Right-of-use assets¹		
Land	₩ 445,964,408,073	₩ 439,712,796,813
Buildings	16,897,420,368	21,859,980,712
Machinery	39,410,864	21,291,373
Vehicles	627,401,201	737,392,307
	<u>₩ 463,528,640,506</u>	<u>₩ 462,331,461,205</u>
Lease liabilities		
Current	₩ 138,594,047,222	₩ 144,030,778,806
Non-current	7,888,720,135	137,614,234,432
	<u>₩ 146,482,767,357</u>	<u>₩ 281,645,013,238</u>

¹ Additions to the right-of-use assets during the years ended December 31, 2024 and 2023, were ₩ 14,132 million and ₩ 19,710 million, respectively.

The amounts relating to leases recognized for the years ended December 31, 2024 and 2023, on the consolidated statement of comprehensive income, are as follows:

<i>(in Korean won)</i>	2024	2023
Statement of comprehensive income:		
Depreciation of right-of-use assets	₩ 12,449,454,388	₩ 12,272,941,441
Land	331,317,547	653,010,366
Buildings	10,539,592,302	9,687,480,159
Machinery	26,818,322	78,934,858
Vehicle	1,551,726,217	1,853,516,058
Interest expenses	2,475,862,849	7,916,972,303
Impairment loss	682,100,276	-
Expense relating to short-term leases	78,255,300	32,885,000
Expense relating to variable lease payments not included in lease liabilities	6,725,757,355	5,506,546,217
Expense relating to leases of low-value assets	1,699,409,288	1,336,728,530
	<u>₩ 24,110,839,456</u>	<u>₩ 27,066,073,491</u>

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Classification of depreciation of right-of-use assets for the years ended December 31, 2024 and 2023, is as follows:

<i>(in Korean won)</i>	2024	2023
Cost of revenue	₩ 7,918,796,133	₩ 7,803,246,472
Selling, general and administrative expenses	4,530,658,255	4,469,694,969
	<u>₩ 12,449,454,388</u>	<u>₩ 12,272,941,441</u>

The total cash outflow from leases in relation to lease liabilities, low-value assets and variable lease payments during the years ended December 31, 2024 and 2023, was ₩ 158,634 million and ₩ 165,573 million, respectively.

20. Other Liabilities

Details of other liabilities as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024		2023	
	Current	Non-current	Current	Non-current
Advance receipts	₩ 989,943,553,496	₩ 58,609,112,309	₩ 685,630,533,518	₩ 66,789,592,807

	₩ 35,350,020,958	₩ 30,563,479,788

The expense recognized for the year ended December 31, 2024 in relation to defined contribution plan was ₩137 million (2023: ₩ 53 million).

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

The significant actuarial assumptions as of December 31, 2024 and 2023, are as follows:

<i>(in percentage, %)</i>	2024	2023
Discount rate	3.55 ~ 4.89 %	4.17 ~ 5.40 %
Future salary increases	4.51 ~ 5.53 %	4.53 ~ 5.28 %

As of December 31, 2024 and 2023, the weighted average duration of the defined benefit obligation is 7.45 years and 7.18 years, respectively.

As of December 31, 2024, effects on the present value of defined benefit obligations if each of significant actuarial assumptions changes within potential reasonable range are as follows (if changed by 1%):

<i>(in Korean won)</i>	Salary growth rate		Discount rate	
	1% increase	1% decrease	1% increase	1% decrease
Impact on present value of defined benefit obligations	₩ 17,787,723,472	₩ (15,873,490,328)	₩ (15,417,611,633)	₩ 17,559,032,375

As of December 31, 2024, estimate of the employer contribution expected to be paid in the following year in relation to the defined benefit plan is ₩ 41,260 million.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

22. Issued Capital and Reserves

Details of issued capital as of December 31, 2024 and 2023, are summarized as follows:

<i>(in Korean won, in shares)</i>	2024	2023
Number of shares authorized	500,000,000	500,000,000
Par value	₩ 2,500	₩ 2,500
Number of shares issued	71,174,000	71,174,000
Issued capital	₩ 177,935,000,000	₩ 177,935,000,000

There are no changes in the number of shares issued and outstanding shares for the years ended December 31, 2024 and the year ended December 31, 2023, are as follows:

Details of share premium as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024	2023
Additional paid-in capital	₩ 6,523,003,969,121	₩ 6,523,003,969,121

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

The analysis of deferred tax assets and liabilities as of December 31, 2024 and 2023, is as follows:

<i>(in Korean won)</i>	2024	2023
Deferred tax assets		
Deferred tax asset to be recovered after more than 12 months	₩ 217,297,016,917	₩ 178,466,483,583
Deferred tax asset to be recovered within 12 months	304,619,726,552	258,677,901,148
	<u>521,916,743,469</u>	<u>437,144,384,731</u>
Deferred tax liabilities		
Deferred tax liability to be recovered after more than 12 months	(1,445,009,041,260)	(1,593,327,830,307)
Deferred tax liability to be recovered within 12 months	(48,804,911,594)	(28,236,761,803)
	<u>(1,493,813,952,854)</u>	<u>(1,621,564,592,110)</u>
Deferred tax assets(liabilities), net	<u>₩ (971,897,209,385)</u>	<u>₩ (1,184,420,207,379)</u>

The Group has no unrecognized deferred tax assets related to investments in associates and joint ventures as of December 31, 2024 and 2023.

Realization of the future tax benefits related to the deferred tax assets is dependent on various factors, including the Group's ability to generate taxable income within the period during which the temporary differences reverse, the outlook of the Korean economic environment, and the overall future industry outlook. The Group periodically considers these factors in reaching its conclusion and recognizes deferred income tax assets based on the possibility of future realization.

Impact of Pillar Two Income Taxes

Under the Pillar Two legislation, the Group is liable to pay a top-up tax for the difference between their GloBE effective tax rate per jurisdiction and the 15% minimum rate.

The Group conducted an assessment of potential exposure to Pillar Two corporate tax of its constituent entities based on the 2023 country-by-country reporting and their 2024 financial statements. In most jurisdictions where the constituent entities operate, either the transitional relief provisions were met, or the effective tax rate was 15% or higher, resulting in no significant additional tax liabilities. Therefore, the Group has not recognized any amount as a current corporate tax expense related to Pillar Two legislation.

Furthermore, the Group took advantage of exception regulation for the recognition and disclosure of deferred tax assets and liabilities related to Pillar Two legislation. As a result, the Group did not recognize nor disclose any deferred tax assets or liabilities associated with the Pillar Two legislation.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

29. Earnings per Share

Basic earnings per share for the years ended December 31, 2024 and 2023, is calculated as follows:

<i>(in share)</i>	2024	2023
Profit for the year	₩ 1,083,315,885,986	₩ 857,691,298,384
Weighted-average number of ordinary shares outstanding	<u>71,174,000</u>	<u>71,174,000</u>
Basic earnings per share	<u>₩ 15,221</u>	<u>₩ 12,051</u>

(b) Weighted-average number of ordinary shares outstanding

Details of change in the weighted-average number of ordinary shares outstanding for years ended December 31, 2024 and 2023, is as follows:

<i>(in share)</i>	2024	2023
Beginning number of ordinary shares issued	71,174,000	71,174,000
Weighted-average number of ordinary shares outstanding	71,174,000	71,174,000

(c) Diluted earnings per share

Because the Group has not issued any potential ordinary shares, basic earnings per share and diluted earnings per share are the same.

If the Group does not comply with the commitments below, financial institutions may require an early redemption of borrowings and debentures. Details of covenants related to borrowings with financial institutions and issuance of debentures as of December 31, 2024, are as follows:

Financial institution	Remarks	Details of covenants
Sumitomo Mitsui Bank ¹	Shareholder composition ratio	The ownership of the Samsung Group shall be over 50%, and Samsung C&T Corporation shall maintain its ownership in the Group in excess of 30%
Sumitomo Mitsui Bank	Shareholder composition ratio	The Parent Company shall maintain its ownership in Samsung Bioepis Co., Ltd. in excess of 50%
Kookmin Bank	Shareholder composition ratio	The Group shall maintain to be affiliates of the Samsung Group and Samsung Group shall maintain its ownership in Samsung Bioepis Co., Ltd. in excess of 50%
BNP Paribas Bank ¹	Shareholder composition ratio	The Group shall maintain to be affiliates of the Samsung Group and the Samsung Group shall maintain its ownership in Samsung Bioepis Co., Ltd. in excess of 50%.
Mizuho Bank ¹	Financial ratio	Samsung Bioepis Co., Ltd. shall maintain the ratio of interest-bearing debt to equity capital less than 180%

¹ Not applicable since there was no borrowing as of December 31, 2023 and December 31, 2024

Issuance	Face Value	Financial Ratio Maintenance	Collateral Restriction	Asset Sale Limit	Governance Restriction
7-2nd Bond	₩120 billion	Debt ratio below 300%	200% of shareholders' equity	80% of Total Assets	Maintaining a business group subject to cross-shareholding restrictions
8-1st Bond	₩200 billion	Debt ratio below 300%	200% of shareholders' equity	80% of Total Assets	Maintaining a business group subject to cross-shareholding restrictions
8-2nd Bond	₩600 billion	Debt ratio below 300%	200% of shareholders' equity	80% of Total Assets	Maintaining a business group subject to cross-shareholding restrictions

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

In connection with a lease agreement with Incheon Metropolitan city ("Incheon") related to the use of land, the Group is exempt from the full amount of rent because the Group meets the requirements for exemption of rent in accordance with the *Common Property Management Ordinance of Incheon*. The Group recognized an intangible asset at the fair value of the rent that is exempt from Incheon and government grant as a reduction of assets at the same value. The period of land use without payment and exemption requirement of the full amount of rent are as follows:

(i) Period

Lease terms are for a total of 50 years. The initial lease period is for 20 years from the land lease contract date, April 28, 2011, and the Group can renew the contract for another 30 years in successive 10-year increments.

(ii) Exemption requirement

The Group whose foreign investment amounts to more than USD 20 million for 5 years since the land lease contract date is subject to the exemption from Article 32 of *Common Property Management Ordinance of Incheon*. Afterwards, the foreign invested enterprises that meet the average daily employee count of above 300, is subject to exemption.

As of December 31, 2024, there are a total of five pending lawsuits of stock transaction damages related to the Group's accounting and disclosure (Note 34) and the total amount of litigation is ₩ 9,329 million. As of December 31, 2024, the Group is in the process of appealing the preliminary injunction filed by Regeneron Pharmaceuticals, Inc. to ban the sale of SB15 products in the United States. The U.S. Court of Appeals for the Federal Circuit ruled to uphold the injunction banning sales in the United States on January 29, 2025. In the meantime, the Group is in the process of an injunction lawsuit filed by Regeneron Pharmaceuticals, Inc. to prohibit the sale of the SB15 product, and on February 7, 2025, the Seoul Central District Court ruled to grant the domestic sales ban injunction. There are thirty eight other lawsuits and the amount of litigation is ₩ 4,730 million.

Contractual obligation to purchase property, plant and equipment and intangible assets are as of December 31, 2024 are ₩ 1,134,897 million, of which the amount committed to related parties including Samsung E&A, Co., Ltd. is ₩ 701,777 million.

In November 2023, the Group entered into an investment agreement with a limit of total ₩ 21,384 million for SVIC No.64 New Technology Business Investment L.L.P. until November 2033.

In relation to Latus Bio, Inc. investment, the Group is obligated to make additional payments of USD 2,166,667 under the certain condition. The group completed the contribution of USD 2,166,667 related to its investment in Latus Bio, Inc on January 16, 2025.

The Group entered into the land purchase agreement with Incheon Free Economic Zone (IFEZ) for the second Bio Campus on July 18, 2022, and the purchase price is ₩ 426 billion. The Group must carry out all procedures, such as facility construction plans and approval for use, within a

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

certain period from the enforcement date of the purchase agreement. When the Group fails to fulfil the procedures, the purchase agreement may be cancelled.

The Group entered into a stock purchase agreement after the resolution of the Board of Directors on January 28, 2022 to acquire 10,341,852 shares of Samsung Bioepis Co., Ltd. held by Biogen Therapeutics Inc., and conditional consideration related with the agreement will be paid to Biogen Therapeutics Inc. After determining whether contractual requirements are met depending on the sales performance through the seller of the invested company after acquisition on an annual basis, whether the contingent consideration payment will be made or not and its amount will be determined in 2027 after the end of the relevant period. The range of the pre-discounted amount that the Group is likely to pay in the future under the above arrangement is USD 0 ~ 50,000,000.

The Group has entered into a supplier financing agreement with financial institutions to support the cash flow of strategic suppliers. Under the agreement, the bank acquires the rights to certain trade receivables of the suppliers. After this acquisition, the Group cannot directly make early payments to the suppliers, nor can it offset the liabilities with the receivables obtained from the suppliers. However, the Group has determined that it is appropriate to continue to present the related amounts in trade payables and other payables on the statement of financial position, as the terms of the trade payables have not substantially changed.

Details of the carrying amount of liabilities under supplier financing arrangements for the years ended December 31, 2024 and 2023, are as follows.

<i>(in Korean won)</i>	2024	2023
Liabilities under supplier financing arrangements	₩ 548,428,157,195	₩ 36,700,582,156
Liabilities under supplier financing arrangements where financial institutions have paid the suppliers ¹	6,421,540,311	14,092,210,167

¹ There were no significant business combinations or exchange rate differences that would affect liabilities under supplier financing arrangements. Additionally, there were no non-cash changes from trade and other payables to liabilities under supplier financing arrangements as of December 31, 2024 and 2023.

The Group determined that the Group is not the party that receives cash from the financial institution. The Group considers the corresponding cash flow occurs due to financial institutions as cash outflows from operating activities.

Supplier finance commitment liabilities are short-term and their carrying amount is considered a reasonable approximation of fair value. Changes to the supplier financial agreement are as follows, and all other terms are the same as those for trade and other payables to the respective suppliers.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

Range of maturity	2024	2023
Liabilities under supplier financing arrangements	Within 120 days from the invoice issuance date	Within 120 days from the invoice issuance date
Trade payables or other payables not part of supplier financing arrangements (same business)	Within 30~45 days from the invoice issuance date	Within 30~45 days from the invoice issuance date

31. Related Parties

As of December 31, 2024, Samsung C&T Corporation is a controlling company, and the percentage of ownership it has over the Group is 43.06%.

Details of related parties as of December 31, 2024, are as follows:

Relationship	Companies
Parent company	Samsung C&T Corporation
Entity with significant influence over the Company	Samsung Electronics Co., Ltd.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

The compensation paid or payable to key management for employee services for the years ended December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>		2024		2023
Short-term employee benefits	₩	8,723,133,354	₩	4,434,094,450
Long-term employee benefits		5,336,649,094		3,156,331,591
Retirement benefits		558,735,462		401,708,159
	₩	<u>14,618,517,910</u>	₩	<u>7,992,134,200</u>

Key management refers to the registered directors (including non-executives). Compensation of the Group's key management personnel includes salaries, non-cash benefits, and contributions to a post-employment defined benefit plan. In addition, the Group has granted long-term incentives to the Group's key management personnel based on its three-year management performance. The estimated amount of liabilities arising from such incentives are recognized as accrued expenses and long-term accrued expenses.

Financing transactions with related parties for the years ended December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	Companies	2024	2023	Description
Associates and joint ventures	Brickbio, Inc. ¹	₩ 1,871,850,341	₩ -	Equity contribution in cash

On January 28, 2022, the Group entered into a stock purchase agreement following a resolution by its board of directors to acquire 10,341,852 shares of Samsung Bioepis Co., Ltd. held by Biogen Therapeutics Inc. The total purchase price is USD 2,300,000,000 (including a conditional payment of USD 50,000,000). The cash outflow for the acquisition of shares in the related subsidiary was USD 437,500,000 for the current period and USD 812,500,000 for the previous period.

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

33. Financial Risk Management

The Group is exposed to credit risk, liquidity risk, and market risk in connection with its financial instruments. This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risks, and the Group's management of capital. Further quantitative disclosures are included throughout these financial statements.

(a) Financial risk management

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The Board of Directors oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

(b) Credit risk

The Group assesses the credit quality of the customer, comprehensively taking into account its financial information and pipeline development stages from the point when the contract is made. Also, the Group periodically evaluates the credit worthiness of each customer or counterparty through the analysis of its financial information, historical transaction records and other factors.

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposures to credit risk as of December 31, 2024 and 2023, are as follows:

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

<i>(in Korean won)</i>	2024	2023
Cash and cash equivalents	₩ 391,221,617,203	₩ 367,937,365,042
Short-term financial instruments	907,350,000,000	1,650,000,000,000
Financial assets at fair value through profit or loss ¹	3,205,101,250	558,999,717
Long-term financial instruments	385,357,612	7,339,455,211
Trade and other receivables	1,098,252,609,555	644,428,586,486

Contract assets - unbilled	60,360,464,225	24,791,698,034
	<u>₩ 2,522,783,350,756</u>	<u>₩ 2,763,104,393,994</u>

¹ Among financial assets at fair value through profit or loss, equity instruments are excluded.

The Group applies the simplified approach to measuring expected credit losses which uses a lifetime expected allowance for credit losses for all trade and other receivables and contract assets. The contract assets have substantially the same risk characteristics as the trade and other receivables for the same types of contracts. The Group has, therefore, concluded that the expected loss rates for trade and other receivables are a reasonable approximation of the loss rates for the contract assets.

The Group applies expected credit loss rates considering the forward looking estimates and probability of default in prior periods for customers with objective evidence of impairment. The Group considered that there was evidence of impairment if any of the following indicators were present:

- significant financial difficulties of the debtor
- probability that the debtor will enter bankruptcy or financial reorganization, and
- default or delinquency in payments

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

On that basis, the allowance for credit losses as of December 31, 2024 and 2023 was determined as follows for both trade and other receivables and contract assets:

(in Korean won)

(in Korean won)

		Past due							
		Current	Less than 1 months	1 - 3 months	3 - 6 months	6 - 12 months	More than 12 months		Total

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

(c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The ultimate responsibility for liquidity risk management remains with the Board of Directors, who establishes fundamental policies to adequately manage short-term, medium-and long-term financing and liquidity management regulations. To maintain adequate liquidity, the Group manages liquidity risk by periodically forecasting and adjusting its capital balance.

The following are the contractual maturities of financial liabilities as of December 31, 2024 and 2023, including estimated interest payments and excluding the impact of netting agreements. The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

¹ Trade and other payables include liabilities under supplier financing arrangements. The financial institutions that have entered into supplier financing arrangements maintain a sound financial position, and the Group does not have significant liquidity risk concentration with these financial institutions (Note 30).

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(d) Currency risk

The Group is exposed to currency risk on sales, purchases, and borrowings. The currencies in which these transactions primarily are denominated are USD and so forth. The Group establishes a plan to manage currency risk through currency forwards and so forth, if considered necessary.

(i) Exposure to currency risk

The Group's exposure to foreign currency risk as of December 31, 2024 and 2023, are as follows:

GBP	1,742.08	1,843.67	1,627.42	1,641.79

(iii) Sensitivity analysis

The Group internally assesses the currency risk against changes in exchange rate fluctuations regularly. The table below summarizes the impact of weakened/strengthened functional currency on the Group's income before tax. The analysis is based on the assumption that functional currency has weakened/strengthened by 10% with all other variables held constant.

(in Korean won)

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(f) Capital management

The Group's capital management is for the purpose of maximizing the shareholders' interest by maintaining an optimal capital structure. To achieve optimal capital structure, the Group may improve financial structure monitoring financial ratios, such as debt-to-equity ratio.

The debt-to-equity ratio as of December 31, 2024 and 2023, are as follows:

<i>(in Korean won)</i>	2024	2023
Total liabilities (A)	₩ 6,431,620,287,493	₩ 6,215,704,796,851
Total equity (B)	10,904,676,062,018	9,830,492,412,345
Debt-to-equity ratio (A/B)	58.98%	63.23%

34. Ruling of the Securities and Futures Commission in relation to the accounting for investment in Samsung Bioepis Co., Ltd., the related administrative lawsuit and the indictment

On July 12, 2018, the Securities & Futures Commission ("SFC") imposed the first administrative measures in accordance with the Act on External Audit of Stock Companies against the Company for alleged failure to disclose sufficient information in the Company's Financial Statements from 2012 to 2015 regarding the Company's joint venture agreement with Biogen Therapeutics Inc. The measures ("First measures") included i) compulsory designation of external auditors for three years; ii) recommendation of dismissal of the Company's executives in charge; and iii) prosecution against the Company and its representative director (CEO). On November 14, 2018, the SFC imposed the second administrative measures in accordance with the Act on External Audit of Stock Companies against the Company for violation of accounting standards by inappropriately applying separate method regarding investments in Samsung Bioepis from 2012 to the first quarter of 2018. The measures ("Second measures") included i) compulsory designation of external auditors for three years; ii) recommendation of dismissal of the Company's representative director (CEO) and executives in charge; iii) referral of the case against the Company and its representative director (CEO) to the Prosecutors Office; iv) retrospective restatement of financial statements; and v) imposition of administrative fine of ₩ 8 billion on November 21, 2018.

In order to demonstrate the legitimacy of the Company's accounting, the Company submitted requests for cancellation of the First measures on October 8, 2018 and the Second measures on November 27, 2018 to the Seoul Administrative Court (the "Court").

As of the reporting date, the lawsuits seeking the cancellation of the First and Second measures are in progress. On September 24, 2020, the Court ruled to cancel the First measures imposed to the Company by SFC and decided to suspend the First measures until the decision of the appeal

Samsung Biologics Co., Ltd. and its Subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

trial is made. The SFC appealed the Court's first trial on October 16, 2020 and the litigation is currently in progress at the Seoul High Court. On August 14, 2024, the Court ruled to cancel the Second measures imposed to the Company by SFC. The SFC appealed the Court's first trial on August 28, 2024 and the litigation is currently in progress at the Seoul High Court.

In addition, the Company submitted requests for suspension of measures by SFC on November 27, 2018 and December 18, 2018, to the Court. The Supreme Court affirmed the suspension of the Second and First measures, on September 6, 2019 and October 11, 2019, respectively.

Administrative lawsuits are in progress relating to the SFC's measures, and it is not possible to predict the outcome of the administrative lawsuits. However, if the Company loses the administrative lawsuits, the consolidated financial statements from 2012 to 2022 could potentially be restated.

If the Company's financial statements are restated in accordance with the SFC's measures, there is no effect on the Group's consolidated financial statements in 2024.

With respect to this matter, the investigation by the prosecutor against the Company's former CEO, former CFO and others for alleged violation of the Act on External Audit of Stock Companies, the Financial Investment Services and Capital Market Act, the Act on the Aggregated Punishment, Etc. of Specific Economic Crimes, and the allegations of evidence destruction under Criminal Act was carried out. In 2021, the Company's former CEO and former CFO were indicted for alleged violation of the Act on External Audit of Stock Companies, alleged violation of the Act on the Aggregated Punishment, Etc. of Specific Economic Crimes, and the allegations of document destruction under Criminal Act, and the first trial was conducted.

On February 5, 2024, the Seoul Central District Court acquitted to the Company's former CEO and former CFO on charges of violation of the Act on External Audit of Stock Companies, and the prosecutor appealed the Court's acquittal on February 8, 2024. The Seoul High Court dismissed the prosecution's appeal on February 3, 2025, and the prosecution appealed the appellate Court's decision on February 7, 2025. In addition, on February 14, 2024, the Seoul Central District Court acquitted to the Company's former CEO and former CFO for alleged violation of the Act on the Aggregated Punishment, Etc. of Specific Economic Crimes, and the allegations of evidence destruction under Criminal Act. With respect to the allegations of evidence destruction, the former CEO was acquitted, and the former CFO received suspended sentence. The prosecutor appealed the Court's first trial on February 20, 2024, and the former CFO who received suspended sentence appealed the Court's first trial on February 21, 2024.

Meanwhile, on December 9, 2019, employees of the Company and Company's affiliate who were arrested on allegations of evidence destruction, were found guilty of violating the Act on External Audit of Stock companies and Criminal Act in the first ruling of the Seoul Central District Court. All the employees of the Company's affiliates appealed the ruling above, and the employee of the Company who abandoned his or her appeal received suspended sentences for the destruction of evidence.

Samsung Biologics Co., Ltd. and its Subsidiaries
Notes to the Consolidated Financial Statements
December 31, 2024 and 2023

If the Company's consolidated financial statements are restated in accordance with the SFC's measures, there is no effect on the Group's consolidated financial statements in 2024 mainly due to the elimination of fair value valuation for Samsung Bioepis in 2015.

(a) Impact on Financial Position

If the Group loses the administrative litigation, it shall restate the statements of financial position (consolidated statements of financial position from 2012 to 2014 and 2020 to 2022) as indicated by the Securities and Futures Commission and its impact shall be as follows.

**Independent Auditor's Report on
Internal Control over Financial Reporting for Consolidation Purposes**

(English Translation of a Report Originally Issued in Korean)

To the Board of Directors and Shareholders of
Samsung Biologics Co., Ltd.

Opinion on Internal Control over Financial Reporting for Consolidation Purposes

We have audited Internal Control over Financial Reporting of Samsung Biologics Co., Ltd. and its subsidiaries (collectively referred to as the "Group") for consolidation purposes as of December 31, 2024, based on *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting*.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting for consolidation purposes as of December 31, 2024, based on *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting*.

We also have audited, in accordance with Korean Standards on Auditing, the consolidated financial statements of the Group, which comprise the consolidated statement of financial position as of December 31, 2024, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flow for the year then ended, and notes to the consolidated financial statements including material accounting policy information, and our report dated February 25, 2025 expressed unqualified opinion.

Basis for Opinion on Internal Control over Financial Reporting for Consolidation Purposes

We conducted our audit in accordance with Korean Standards on Auditing. Our responsibility under these standards are further described in the *Auditor's Responsibilities for the Audit of Internal Control over Financial Reporting for consolidation purposes* section of our report. We are independent of the Group in accordance with the ethical requirements of the Republic of Korea that are relevant to our audit of internal control over financial reporting for consolidation purposes and we have fulfilled our other ethical responsibilities in accordance with the ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management and Those Charged with Governance for Internal Control over Financial Reporting for Consolidation Purposes

Management is responsible for designing, implementing and maintaining effective internal control over financial reporting for consolidation purposes, and for its assessment about the effectiveness of internal control over financial reporting for consolidation purposes, included in the accompanying Management's Report on the Effectiveness of Internal Control over Financial Reporting for Consolidation Purposes.

Those charged with governance have the responsibilities for overseeing internal control over financial reporting for consolidation purposes.

Auditor's Responsibilities for the Audit of Internal Control over Financial Reporting for Consolidation Purposes

Our responsibility is to express an opinion on internal control over financial reporting for consolidation purposes of the Group based on our audit. We conducted the audit in accordance with Korean

Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting for consolidation purposes was maintained in all material respects.

An audit of internal control over financial reporting for consolidation purposes involves performing procedures to obtain audit evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment, including the assessment of the risks that a material weakness exists. An audit includes obtaining an understanding of internal control over financial reporting for consolidation purposes and testing and evaluating the design and operating effectiveness of internal control over financial reporting for consolidation purposes based on the assessed risk.

Definition and Inherent Limitations of Internal Control over Financial Reporting for Consolidation Purposes

An entity's internal control over financial reporting for consolidation purposes is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with International Financial Reporting Standards as adopted by the Republic of Korea. An entity's internal control over financial reporting for consolidation purposes includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with International Financial Reporting Standards as adopted by the Republic of Korea, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting for consolidation purposes may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The engagement partner on the audit resulting in this independent auditor's report is Ki-Rok Kim, Certified Public Accountant.

Samil PricewaterhouseCoopers

Seoul, Korea

February 25, 2025

This report is effective as of February 25, 2025, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the Group's internal control over financial reporting for consolidation purposes thereto. Accordingly, the readers of the audit report should understand that there is a possibility that the above audit report may have to be revised to reflect the impact of such subsequent events or circumstances, if any.

**Management's Report on the Effectiveness of
Internal Control over Financial Reporting for Consolidation Purposes**

(English Translation of a Report Originally Issued in Korean)

To the Shareholders, Board of Directors and Audit Committee of
Samsung Biologics Co., Ltd.

We, as the Chief Executive Officer (CEO) and the Internal Control over Financial Reporting Officer of Samsung Biologics Co., Ltd. and its subsidiaries (collectively referred to as the "Group"), assessed the effectiveness of the design and operation of the Group's Internal Control over Financial Reporting (ICFR) for Consolidation Purposes for the year ended December 31, 2024.

The Group's management, including ourselves, is responsible for designing and operating ICFR for consolidation purposes. We assessed the design and operating effectiveness of ICFR for consolidation purposes in the prevention and detection of an error or fraud which may cause material misstatements in the preparation and disclosure of reliable consolidated financial statements. We designed and operated ICFR for consolidation purposes in accordance with *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting* established by the Operating Committee of Internal Control over Financial Reporting in Korea (the ICFR Committee). And, we conducted an evaluation of ICFR for consolidation purposes based on *Best Practice Guideline for Evaluating and Reporting Effectiveness of Internal Control over Financial Reporting* established by the ICFR Committee.

Based on the assessment results, we believe that the Group's ICFR for consolidation purposes, as of December 31, 2024, is designed and operating effectively, in all material respects, in accordance with *Conceptual Framework for Designing and Operating Internal Control over Financial Reporting*.

We certify that this report does not contain any untrue statement of a fact, or omit to state a fact necessary to be presented herein. We also certify that this report does not contain or present any statements which cause material misunderstandings, and we have reviewed and verified this report with sufficient due care.

February 12, 2025

John Rim,
Chief Executive Officer

Seung Ho Ryu,
Internal Control over Financial Reporting Officer
